This publication is being published by the WHO Department of Maternal, Newborn, Child and Adolescent Health which has been established following the merger of the Department of Child and Adolescent Health and Development (CAH) and Making Pregnancy Safer. It was prepared by the WHO Department of Child and Adolescent Health and Development (CAH) in collaboration with the WHO Departments of Making Pregnancy Safer and Reproductive Health and Research, on the basis of the work undertaken in collaboration with several individuals and organizations that contributed to the development of these guidelines (listed below) and on the basis of the WHO Expert Panel meeting, held in Geneva on 2–3 November of 2010. WHO acknowledges their contributions with gratitude.

The pressing need for the guidelines was communicated to WHO by policy-makers and programme managers in many developing countries. The development of these guidelines was led by Alma Virginia Camacho and Venkatraman Chandra-Mouli. They would like to convey their special thanks to Ahmet Metin Gulmezoglu of the Department of Reproductive Health and Research for his guidance throughout the development process.
