## Content

ACKNOWLEDGEMENTS.....	VI
LIST OF ABBREVIATIONS.....	VII
EXECUTIVE SUMMARY .....	VIII
1 INTRODUCTION.....	2
1.2 DEFINING SECOND-HAND SMOKE .....	2
1.3 PROPERTIES OF SECOND-HAND SMOKE .....	2
1.4 CURRENT AND EX-SMOKERS.....	2
2 METHODS.....	3
2.1 SUMMARY OF THE METHOD USED TO ESTIMATE THE ENVIRONMENTAL BURDEN OF DISEASE AT GLOBAL LEVEL .....	3
2.2 EXPOSURE ASSESSMENT.....	5
2.3 HEALTH EFFECTS SELECTED FOR THE GLOBAL ESTIMATE OF BURDEN OF DISEASE .....	12
2.4 EQUIVALENCE OF EXPOSURE DEFINITION IN SURVEYS AND IN EPIDEMIOLOGICAL STUDIES .....	19
2.5 AVAILABLE HEALTH DATA FOR THE SELECTED OUTCOMES.....	26
3 RESULTS.....	31
3.1 BURDEN OF DISEASE ATTRIBUTABLE TO SECOND-HAND SMOKE .....	31
3.2 ESTIMATES OF UNCERTAINTY .....	41
3.3 SENSITIVITY ANALYSIS .....	43
3.4 COMPARISONS WITH OTHER STUDIES.....	44
3.5 CONCLUSIONS .....	46
4 REFERENCES .....	48
5 ANNEX.....	55
Table A1 Available national data on occurrence of second-hand smoke exposure among children and adults .....	55
Table A2 Estimated recent exposure to second-hand smoke for children and adult men and women.....	63
TABLES	
Table 1 Proportion of countries and children in countries covered by surveys on parental smoking, by region.....	6
Table 2 Models used for estimating children's SHS exposure.....	7
Table 3 Proportion of children under 15 years with one or more parent who smokes (based on survey data and modelling) .....	9
Table 4 Proportion of adults in countries covered by surveys on exposure to SHS, by region.....	10
Table 5 The proportion of non-smoking adults exposed regularly to SHS, by WHO region, based on survey data and modelling .....	12
Table 6 Recommended risk estimates and summary of conclusions of recent reviews of health effects of exposure to SHS in children <sup>a</sup> .....	13
Table 7 Recommended risk estimates and summary of conclusions of recent reviews of health effects of exposure to SHS in adult non-smokers <sup>a</sup> .....	16
Table 8 Mean number of daily cigarettes consumed by smoker in each region <sup>a</sup> .....	21

Table 9	Smoking at home in the presence of children compared to parental smoking.....	22
Table 10	Hair nicotine in children and women .....	24
Table 11	Burden of lower respiratory infections (deaths and DALYsa) in children 0–4 years by WHO subregion, 2004 .....	26
Table 12	Burden of acute otitis media (deaths and DALYsa) in children 0–4 years, by WHO subregion, 2004 .....	27
Table 13	Burden of asthma (deaths and DALYsa) in children 0–14 years, by WHO subregion, 2004 ...	28
Table 14	Burden of asthma (deaths and DALYsa), by WHO subregion, in the population >15 years, 2004 .....	29
Table 15	Burden of lung cancer (deaths and DALYsa), by WHO subregion, in the population >15 years, 2002 .....	30
Table 16	Burden of ischaemic heart disease (deaths and DALYsa), by WHO subregion, in the population >15 years, 2004 .....	31
Table 17	Burden of lower respiratory infections attributable to SHS exposure, in children 0–4 years, 2004 .....	32
Table 18	Burden of acute otitis media attributable to SHS exposure, in children 0–4 years old, 2004 ..	33
Table 19	Burden of asthma attributable to SHS exposure, for children 0–14 years old, 2004 .....	34
Table 20	Burden of asthma attributable to SHS exposure, population ≥15 years, 2004 .....	35
Table 21	Burden of lung cancer attributable to SHS exposure, population ≥15 year olds, 2004 <sup>a</sup> .....	36
Table 22	Burden of ischaemic heart disease attributable to SHS exposure, opulation ≥15 years, 2004 ....	37
Table 23	Total deaths and DALYsa from second-hand smoke by outcome, 2004 .....	38
Table 24	Total deaths and DALYsa from second-hand smoke by subregion, 2004 .....	38
Table 25	Total deaths and DALYsa from second-hand smoke, by population group and subregion, 2004 .....	39
Table 26	Effects of varying assumptions on estimates of mortality caused by second-hand smoke, 2004 <sup>a</sup> .....	43
Table 27	National estimates of deaths per year attributable to SHS .....	45

## FIGURES

Figure 1	Children's SHS exposure and parental smoking, models used and survey data .....	8
Figure 2	Women's SHS exposure and male active smoking in developing countries .....	11
Figure 3	SHS exposure and male active smoking in developed countries .....	11
Figure 4	Distribution of total deaths and DALYsa attributable to SHS, 2004 .....	40

## **Acknowledgements**

We are grateful for the thoughtful comments received from the reviewers during the preparation of this report: Stan Glantz of the University of California; Jon Samet of the John Hopkins Bloomberg School of Public Health; and Roberto Bertollini and Daniel Ferrante of the World Health Organization. We also appreciate the support received from Douglas Bettcher, Maria Neira and Luminita Sanda of the World Health Organization, and from Diana Hopkins, external consultant, who edited the report.

This report also benefited from the support of Leda Nemer and Christian Schweizer of the WHO European Centre for Environment and Health in Rome, and of the Swedish Board of Health and Welfare in the development of the method underlying this assessment, which is published separately.

This publication is the result of a joint project between the Tobacco Free Initiative (TFI) and the Public Health and the Environment Department (PHE) of the World Health Organization.

## List of abbreviations

CDC	Centres for Disease Control and Prevention
CI	Confidence interval
Cal-EPA	Californian Environmental Protection Agency
DALY	Disability-adjusted life years
ECRHS	European Community Respiratory Health Survey
GYTS	Global Youth Tobacco Survey
GBD	Global burden of disease
IARC	International Agency for Research on Cancer
IHD	Ischaemic heart disease
LRI	Lower respiratory infection
OR	Odds ratio
PAF	Population attributable fraction
RR	Relative risk
SHS	Second-hand smoke
TFI	Tobacco Free Initiative
WHO	World Health Organization
