Acknowledgements

The World Health Organization wishes to express its appreciation to the Government of Singapore for its support in organizing the three workshops (2007–2009). A total of 24 invited speakers, six WHO Advisors and 55 participants (Appendix 1), including government regulators, industry leaders and academic advisors with experience and expertise, spanning multiple Asian countries, attended the three annual workshops on the Management of National Blood Programmes. The participants were from a total of 18 Member States in the Western Pacific and South-East Asia Regions.

We thank all the presenters and participants for the ideas and facts generated in the workshop, and their contributions throughout the three annual workshops. Ideas have not been attributed to specific individuals, but rather to the entire group in the collaborative spirit of this workshop for learning purposes.

We acknowledge the contribution of Dr Diana Teo, Group Director, Blood Services Group, Health Sciences Authority, Singapore and her team, in particular, Ms Hozanna Ngoh, Ms Erin Pung and Ms Leou Kwee Kim who painstakingly compiled all the presentations and prepared the draft of this publication.
