Foreword	vii
Executive Summary	ix
1. Introduction	1
1.1 What is the place and purpose of the updated Operational Guidelines?	1
1.2 What is the target audience for the updated Operational Guidelines?	1
1.3 How can the Enhanced Global Strategy and the updated Operational Guidelines be applied to countries with widely differing health systems?	2
1.4 What does it mean to "reduce the disease burden due to leprosy"?	3
1.5 What are "quality leprosy services"?	4
1.6 What are the "principles of equity and social justice" in this context?	5
1.7 What measures can be taken to ensure equity and social justice? ..	6
2. Integration and referral	7
2.1 How does referral work in an integrated health service?	7
2.2 Which conditions in leprosy require referral?	10
2.3 How could partnerships strengthen the referral system?	11
3. Case detection	13
3.1 How should case detection be organized?	13
3.2 What is the role of household contact examination in case detection?	13
3.3 How can early case detection be promoted?	13
3.4 What is the importance of community awareness in leprosy control?	15
3.5 What are the key messages about leprosy for the general public?	15

4. Diagnosis	17
4.1 What is a case of leprosy and when should leprosy be suspected?	17
4.2 How is leprosy diagnosed?	17
4.3 How and why are leprosy cases classified?	20
4.4 What should be done when leprosy is suspected but the diagnosis is uncertain?	21
4.5 How can the accuracy of leprosy diagnosis be ensured?	22
4.6 How is disability assessed and recorded in leprosy?	22
4.7 What are the key messages for someone newly diagnosed with leprosy?	26
5. Treatment	27
5.1 What is MDT and what steps need to be taken when starting treatment?	27
5.2 Which drugs are included in MDT and what are the doses for adults and children?	29
5.3 What should be done when a person does not regularly attend clinic for treatment?	30
5.4 Who is a defaulter and what should be done for people who return to the clinic after defaulting?	31
5.5 What is a relapse? How is it recognized and managed?	32
5.6 Is drug resistance a problem?	33
5.7 What complications occur in leprosy and how are they managed?	34
5.8 What are leprosy reactions? How are they suspected and managed?	36
5.9 How is a relapse distinguished from a reaction in leprosy?	39
5.10 What are the key messages for someone who is completing treatment successfully?	40
6. Prevention of Disability (PoD) and self-care	41
6.1 Are some patients more at risk of nerve damage than others?	41
6.2 What are the effects of nerve damage in leprosy?	41
6.3 What can be done for people with disabilities due to leprosy?	42
6.4 How can people be encouraged to practice self-care at home?	46
6.5 What is the value of appropriate footwear for people affected by leprosy?	46
7. Rehabilitation	47
7.1 What is rehabilitation?	47
7.2 What is the role of health workers in rehabilitation?	47
7.3 What is Community-based rehabilitation?	48
7.4 What actions are needed to promote inclusion of persons affected by leprosy in CBR?	49

8. Monitoring, recording and reporting	51
8.1 What are the main indicators for monitoring progress and how are they used?	51
8.2 What are the main indicators for evaluating case-detection activities?	53
8.3 What are the indicators for assessing the quality of leprosy services?	53
8.4 What records are used in clinics treating leprosy?	55
9. Organizational issues for programme managers	59
9.1 What are underserved populations?	59
9.2 How can access to leprosy services be improved in underserved population groups?	59
9.3 How can programmes improve access to leprosy services in urban areas?	60
9.4 How should technical supervision be organized?	61
9.5 How can programme managers ensure easy access to MDT?	62
9.6 How can partnerships be developed to enhance leprosy control activities?	63
9.7 What is the role of persons affected by leprosy in leprosy control?	64
9.8 What type of training should be provided to general health workers?	64
9.9 What is programme evaluation and how is it carried out?	65
10. Addenda	67
10.1 Further reading	67
10.2 Glossary	69
