Requests for permission to reproduce or translate WHO publications – whether for sale or for noncommercial distribution – should be addressed to WHO Press, at the above address (fax: +41 22 791 4806; e-mail: [permissions@who.int](mailto:permissions@who.int)).

The designations employed and the presentation of the material in this publication do not imply the expression of any opinion whatsoever on the part of the World Health Organization concerning the legal status of any country, territory, city or area or of its authorities, or concerning the delimitation of its frontiers or boundaries. Dotted lines on maps represent approximate border lines for which there may not yet be full agreement.

The mention of specific companies or of certain manufacturers' products does not imply that they are endorsed or recommended by the World Health Organization in preference to others of a similar nature that are not mentioned. Errors and omissions excepted, the names of proprietary products are distinguished by initial capital letters.

All reasonable precautions have been taken by the World Health Organization to verify the information contained in this publication. However, the published material is being distributed without warranty of any kind, either expressed or implied. The responsibility for the interpretation and use of the material lies with the reader. In no event shall the World Health Organization be liable for damages arising from its use.

This publication contains the collective views of an international group of experts and does not necessarily represent the decisions or the policies of the World Health Organization.

## ACKNOWLEDGEMENTS

This provisional version of the *Health Cluster Guide* has been produced by the Working Group on Guidance and Tools, co-chaired by Save the Children UK and WHO/Health Action in Crises. It has benefited from inputs from CARE, Centres for Disease Control (CDC), International Medical Corps (IMC), International Rescue Committee (IRC), Merlin, Save the Children UK, Save the Children USA, UNFPA, UNHCR, UNICEF, WHO and World Vision and has been reviewed by many other cluster partners at the country, regional and headquarters levels.

### **Request for feedback**

This provisional version is intended to be used for extensive field testing during the second half of 2009 and first half of 2010, and feedback is sought from national health authorities and organizations providing health services in humanitarian crises, especially those participating in health clusters or other health sector coordination groups at country and sub-national levels. Following a review process in the second half of 2010, a revised and updated edition of the *Guide* will be produced.

***Please send comments and suggestions  
for improvements***  
to the Global Health Cluster Secretariat at:  
healthcluster@who.int  
indicating “Feedback on health cluster guide”  
in the subject line.

# CONTENTS
