Publications of the World Health Organization can be obtained from WHO Press, World Health Organization, 20 Avenue Appia, 1211 Geneva 27, Switzerland (tel.: +41 22 791 3264; fax: +41 22 791 4857; e-mail: bookorders@who.int). Requests for permission to reproduce or translate WHO publications — whether for sale or for noncommercial distribution — should be addressed to WHO Press, at the above address (fax: +41 22 791 4806; e-mail: permissions@who.int).

The designations employed and the presentation of the material in this publication do not imply the expression of any opinion whatsoever on the part of the World Health Organization concerning the legal status of any country, territory, city or area or of its authorities, or concerning the delimitation of its frontiers or boundaries. Dotted lines on maps represent approximate border lines for which there may not yet be full agreement.

The mention of specific companies or of certain manufacturers' products does not imply that they are endorsed or recommended by the World Health Organization in preference to others of a similar nature that are not mentioned. Errors and omissions excepted, the names of proprietary products are distinguished by initial capital letters.

All reasonable precautions have been taken by the World Health Organization to verify the information contained in this publication. However, the published material is being distributed without warranty of any kind, either expressed or implied. The responsibility for the interpretation and use of the material lies with the reader. In no event shall the World Health Organization be liable for damages arising from its use.

Acknowledgements

The completion of this project and the preparation of this report would not have been possible without the help of the many institutions, agencies and personalities that provided valuable information and full support. In this respect, the investigators would like to thank the following: the National Statistics Office, the National Statistical Coordination Board, the National Tobacco Administration, the Philippine Health Insurance Corporation and the Food and Nutrition Research Institute's Department of Science and Technology.

Likewise, heartfelt appreciation is expressed for the support of Undersecretary of Health Ethelyn P. Nieto, Health Program Development Cluster Office, Director Yolanda E. Oliveros of the National Center for Disease Prevention and Control, Director Enrique A. Tayag of the National Epidemiology Center, Dr Ma. Virginia G. Ala of the Bureau of International Health Cooperation and Dr Jessica C. de Leon of the National Center for Health Promotion, all of the Department of Health, Manila, Philippines.

The same goes for Dr Dante D. Morales, Dr Antonio L. Dans, Ms. Frances Priscilla Cuevas, Ms. Felicidad Velandria, Ms. Charmaine A. Duante, and Ms. Myrsa Belarmino of the National Nutrition and Health Survey Team along with Dr Eduardo P. Banzon and Dr Joyce Encluna of the Philippine Health Insurance Corporation. To those who facilitated the experts interview for health care costs, thanks go to Dr Carol Valdecanas of St. Luke's Medical Center, Dr Geraldine Montes, Dr Gina Abraham of the Center for Health Development II, Tuguegarao City, Cagayan, and Dr Diday Dico of the Center for Health Development VIII, Tacloban City, North Leyte.

Most significantly, thanks go to Dr Jean- Marc Olive and John Juliard Go, Office of the WHO Representative of the Philippines, and Dr Gauden Galea, WHO Western Pacific Regional Office, Noncommunicable Diseases.
