5.2	The cost of refrigeration and the lactoperoxidase lystem	27
5.3	International trade	28
5.4	Dairy standards, policy and the lactoperoxidase system	29
5.5	Economic value and impact	29
5.6	Availability of the lactoperoxidase system components	30
5.7	Conclusions and recommendations	30
6. Over	all conclusions and recommendations	32
7. Refe	rences	37
Append	lix A - Papers submitted in response to the FAO/WHO call for data	48
Append of th	dix B – Additional background papers made available in the course ne meeting	51
Appeno refr with	lix C - Summary table comparing the lactoperoxidase system, igeration and the combination of the lactoperoxidase system refrigeration	52
Append diet	lix D - Thiocyanate exposure based on the GEMS/food regional s both with and without lactoperoxidase treated milk	53
Append in ki	lix E - Food supply according to GEMS/food regional diets lograms/year	54

Acknowledgments

The Food and Agriculture Organization of the United Nations (FAO) and the World Health Organization (WHO) would like to express their appreciation of all those who contributed to the preparation of this report through the provision of their time and expertise, data and other relevant information and by reviewing the document and providing comments.

Appreciation is also extended to all those who responded to the call for data that was issued by FAO and WHO and brought to our attention information that was not readily available in the mainstream literature and official documentation.

The preparatory work and technical meeting convened to prepare this report was coordinated by the Animal Production and Food Quality and Standards Services of FAO. This included Anthony Bennett, Sarah Cahill, Ruth Charrondiere, Maria de Lourdes Costarrica, Frederic Lhoste and Simon Mack in FAO and Hae Jung Joon and Jørgen Schlundt in WHO. Publication of the report was co-ordinated by Anthony Bennett, Sarah Cahill and Frederic Lhoste. Art direction by Nicoletta Forlano and design by James Morgan. James Edge edited the report.

The work was supported and funded by the Animal Production and the Food Quality and Standards Services of FAO and the WHO Department of Food Safety, Zoonoses and Foodborne Disease.

Meeting participants

Prof. Olivia Calisay EMATA

Assistant Professor and University Researcher Dairy Training and Research Institute ADSC. UP Los Baños College Laguna, Philippines

Dr Alistair GRANDISON

Senior Lecturer The University of Reading United Kingdom

Prof. Hannu Jaakko Tapani KORHONEN

Director of Food Research MTT Agrifood Research Finland

Prof. Christiaan Wilfried MICHIELS

Professor in Food Microbiology and Head of the Laboratory of Food Microbiology Katholieke Universiteit Leuven Belgium

Mr Hezekiah Gichere MURIUKI

Dairy Economics Consultant Kenya

Ing. Pastor Ceballo PONCE
