Acknowledgements	
	Page
Chapter 1. Dust: Definitions and Concepts	
1.1 Dust as an occupational hazard	Chapter 1 - 1
1.2 Penetration and deposition of particles in the human	respiratory tract 3
1.3 Clearance of particles from the respiratory tract	6
1.3.1 Mucociliary clearance	6
1.3.2 Bronchiole movement	6
1.3.3 Phagocytosis	6
1.4 Risk to health	7
1.5 Particle size fractions: conventions for particle sample	
1.6 Mechanisms of dust generation and release	8
1.6.1 Mechanical breakdown	8
1.6.2 Dust dispersal	9
1.6.3 Dustiness indices	11
References	12
Chapter 2. Recognizing the Problem: Exposure and Disease	;
2.1 Dust exposures	Chapter 2 - 1
2.1.1 Dusty occupations	1
2.1.2 Dusty processes	2
2.1.3 Particular hazards	3
2.1.4 Examples of exposure	4
2.2 Problems caused by dust	2 3 4 5 5
2.2.1 Routes of exposure	
2.2.2 Potential health effects by inhalation	6
2.2.3 Pneumoconioses	7
2.2.4 Cancer	9
2.2.5 Ischaemic heart disease	9
2.2.6 Systemic poisoning	9
2.2.7 Hard metal disease	10
2.2.8 Irritation and inflammatory lung injuries	10
2.2.9 Allergic responses	10

0.0 1.1 0.1 0.1 0.1 1.1 1.1 0.0	11
2.2.11 Other sources of information concerning heath effective states of the concerning heath effective states are stated as a second state of the concerning heath effective states are stated as a second state of the concerning heath effective states are stated as a second state of the concerning heath effective states are stated as a second state of the concerning heath effective stated as a second stated stated as a second stated stated as a second stated stated stated as a second stated stat	ects 12
2.3 Examples of prevalence of dust-related disease	13
2.4 Safety and other issues	15
2.4.1 Fire and explosion hazards	15
2.4.2 Other issues	16
References	17
Chapter 3. Dust Control and Good Management	
3.1 General considerations	Chapter 3 - 1
3.2 Establishment of hazard prevention and control programmes	3
3.3 Required resources	4
3.4 Clear policy and management tools	5
3.5 Continuous improvement	6
3.6 Monitoring of performance	7
3.6.1 General relevance of indicators	7
3.6.2 Scientific relevance of indicators	7
3.6.3 User relevance	8
3.6.4 Health surveillance	8
3.6.5 Environmental surveillance	8
References	9

Chapter 5. Control approaches and strategies

	5.1 Approaches to solutions for occupational hazards	Chapter 5 - 1
	5.2 The need for a strategic approach	1
	5.3 Classification as an aid to strategy	3
,	5.4 Options for control	4
	5.5 Anticipated preventive action	6
,	5.6 Special issues	9
	5.6.1 Maintenance and repair work	9
	5.6.2 Emergencies	10
	References	10
Chap	ter 6. Control of dust sources	
	6.1 Elimination	Chapter 6 - 1
	6.2 Substitution of materials (nature, form)	1
	6.3 Problems of substitution	2
	6.4 Substitutes for silica sand in abrasive blasting	4
	6.5 Physical form	4
	6.6 Process and equipment modification	5
	6.7 Wet methods	7
	6.8 Maintenance of equipment	10
	References	10
Chap	ter 7. Control of dust transmission	
	7.1 Containment (or isolation) and enclosures	Chapter 7 - 1
	7.2 Ventilation principles	2
	7.3 General ventilation	3
	7.4 Local exhaust ventilation	5
	7.4.1 System design	6
	7.4.2 Capturing the dust	7
	7.4.3 Exhaust hoods	10
	7.4.4 Ducts	14
	7.4.5 Fans	16
	7.4.6 Replacement air	17
	7.4.7 Downflow booths	17
	7.4.8 Summary of key elements in local exhaust ventil	lation 17
	7.5 Examination and testing of ventilation systems	24
	7.6 Cleaning the exhaust ventilation	25
	7.6.1 Gravity settling chambers	26
	7.6.2 Cyclones	27
	7.6.3 Electrostatic precipitators (ESPs)	27
	7.6.4 Fabric filters (baghouses)	28
	7.6.5 Wet scrubbers	28
	7.6.6 Selection of dust collectors	29
	References	32

Chapter 8. The role of the worker: work practice and personal protection

8.1 Work practices	Chapter 8 - 1
8.2 Education, training and hazard communication	
8.3 Perception of dust problems	4
8.4 Personal protective equipment (PPE)	5
8.4.1 Respiratory protective equipment (RPE)	6
8.4.2 Protective clothing and control of exposure	10
8.5 Personal and clothing hygiene	. 12
8.6 Health surveillance	12
References	
Chapter 9. Housekeeping and related matters	¢.
9.1 Good housekeeping	Chapter 9 - 1
9.2 Storage	2
9.3 Labelling	. 3
9.4 Warning signs and restricted areas	. 4
Reference	5
Chapter 10. Environmental Protection	
10.1 General issues	Chapter 10 - 1
10.2 Strategies	2
10.3 Further information	3
References	3
Chapter 11. Sources of Information	
11.1 International agencies	Chapter 11 - 1
11.1.1 World Health Organization	1
11.1.2 International Labour Office (ILO)	2
11.1.3 United Nations Development Programme	(UNEP) 4
11.1.4 International Programme on Chemical Saf	Sety (IPCS) 5
11.2 National institutions	5
11.2.1 National Institute for Occupational Safety	and Health (NIOSH),
