In 1968, the Infectious Diseases Society of America undertook editorial responsibility for *The Journal of Infectious Diseases*. The growth of the *Journal* attests to the need that has been met by its publication. In 1979, a second journal, *Reviews of Infectious Diseases*, was added to the editorial responsibilities of the Society. *Reviews of Infectious Diseases* is intended to publish review articles in any of the fields that reflect the wide range of interests of the membership of the Infectious Diseases Society of America. While some reviews may be solicited, unsolicited reviews of any topic in infectious diseases are welcome, as are suggestions for central themes, symposia, teaching and training materials, hypotheses, and related seminars, conferences, and topics of current interest. Communications to the editor are welcome. The ultimate purpose of *Reviews of Infectious Diseases* is to supplement *The Journal of Infectious Diseases* in providing a means for improving communication among all of those interested in infectious diseases. *Reviews of Infectious Diseases* (ISSN 0162-0886) is published bimonthly at The University of Chicago Press, 5801 S. Ellis Avenue, Chicago, Illinois 60637.

Communications for the editors and manuscripts should be addressed to The Editor, *Reviews of Infectious Diseases*, Channing Laboratory, 180 Longwood Avenue, Boston, Massachusetts 02115. Business correspondence should be addressed to the University of Chicago Press, Journals Division, P.O. Box 37005, Chicago, Illinois 60637.

The copyright code on the first page of an article in this journal indicates the copyright owner's consent that copies of the article may be made only for personal or internal use, or for the personal or internal use of specific clients, and provided that the copier pay the stated per-copy fee through the Copyright Clearance Center, Inc., Operations Center, P.O. Box 765, Schenectady, New York 12031. To request permission for other kinds of copying, such as copying for general distribution, for advertising or promotional purposes, for creating new collective works, or for resale, kindly write to the publisher. If no code appears on the first page of an article, permission to reprint may be obtained only from the author.
